User's manual

The lamp is used exclusively for lighting mounted on the wall, and is to be installed in accordance with the national installation regulations. Any other use is regarded as not according to instructions. Verify that product ratings meet supply ratings before installing the luminaire. We recommend to attach the wire to the wall, as loose wires may cause a strangulation risk to babies and small children. Place the lamp on the wall and secure it with two screws. Connect the LED lamp to the supply.

Lightsource:

Number of light sources 80

Energy Class A++ - A
